Safeguarding:

A guide for parents

After a disclosure

Your child has made a disclosure to an adult in school.

Because of this school have referred the case to MASH (Multi Agency Safeguarding Hub) in Haringey.

MASH will now carry out an investigation.

This means your child needs to stay in school until social care professionals come to talk to them.

Do not worry, your child will be looked after by school staff and given some snacks.

School staff have explained that someone is coming to talk to your child and have made sure they are not worried.

What happens next?

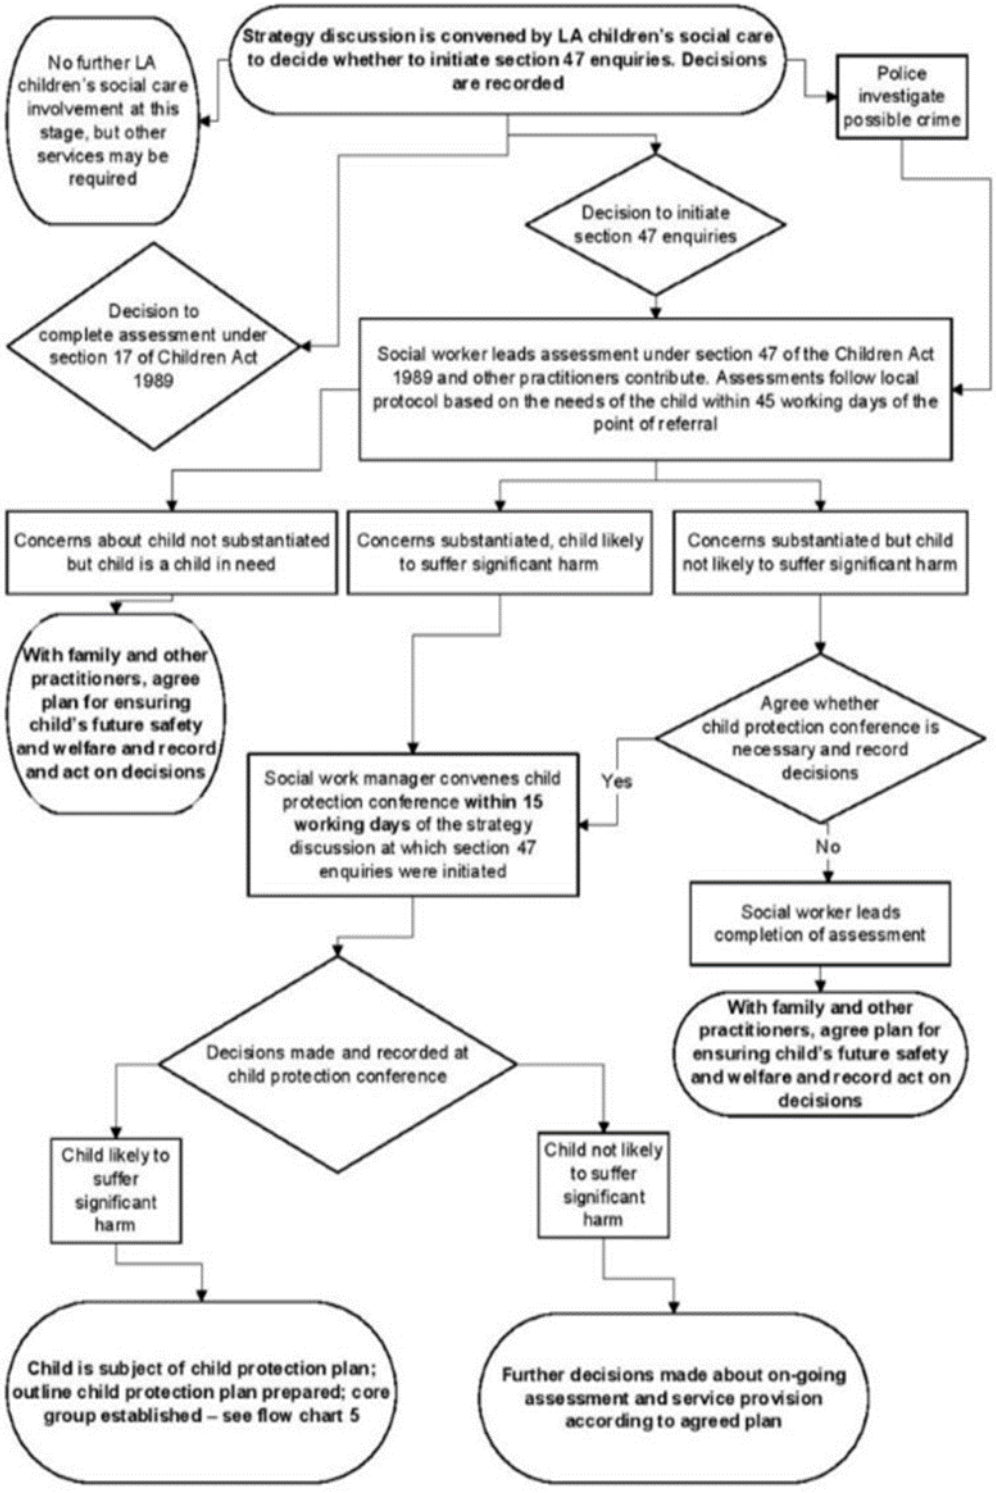
A strategy meeting will be held very soon to decide how the investigation takes place and which professionals are involved.

School will update you after this meeting.

Time scales will be provided by the professionals from MASH that will be involved in the investigation.

School will keep you updated as soon as we are informed of the time scales.

The flow chart on the next page shows you what will happen next.



Whatever the outcome the school will continue to support you and your family. We remain impartial and are here to support.

School will offer you a 'check in' meeting in a few days to make sure that you and your family are ok.

Thank you for your continued support.
